The strategies will (mark all that apply)

- Provide opportunities for all children, including subgroups of students, to meet the challenging Missouri Learning Standards.

Description of how strategy/strategies will provide

Supplemental instruction will be provided to students using a combination of a push-in model within the regular classroom as well as pull out/resource assistance to provide additional support to students who are experiencing difficulty meeting learning standards. Using the push-in model, implementation of evidence-based whole class intervention strategies will impact student performance for all students, regardless of their achievement level. Title I teachers will provide technical support to Middle School staff incorporation of evidence-based ELA strategies into core instruction to positively impact student performance.

As determined appropriate by assessment data, small group instruction will be provided to students needing additional individualized assistance to close achievement gaps during a intervention block incorporated into the building master schedule. During this intervention block, Title I teachers will provide direct instruction to small groups to more effectively meet the individual needs of students at-risk of not meeting Missouri Learning Standards, with a priority given to fifth and sixth grade students exhibiting deficits as documented through the Reading Success Plan process.

- Use methods and instructional strategies that strengthen the academic program in the school.

Description of how strategy/strategies will strengthen

The implementation of PBS within the building provides students with a learning environment that promotes cooperation, academic excellence, respect, and safety. With less disruption to the learning environment, students have a greater opportunity to receive quality instruction and attain mastery of learning standards. Utilizing effective practices such as developing assessment capable learners, common formative assessments, collaboration, and the data team process, teachers are able to focus on acquiring and implementing effective educational practices that will improve educational outcomes for all students.

Increase the amount of learning time

- Extended school year

Description of how strategy will provide

Activities that address the needs of those at risk of not meeting the Missouri Learning Standards will include (mark all that apply)

Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the Missouri Learning Standards

Description of how strategy/strategies will address

Implementation of supplemental instruction programs and increased accessibility to intervention resources (both digital and traditional) will provide students at risk of not meeting the Missouri Learning Standards more effective instruction designed to address specific achievement gaps based on individual student needs. Educational practices and strategies acquired by teachers through additional training opportunities, especially in the area of literacy development, will impact their effectiveness in meeting the educational needs of all students. Continued inclusion of an RTI block into the master schedule for all grade levels will provide additional opportunities to more effectively meet the individual needs of students at-risk of not meeting Missouri Learning Standards.

If the plan is not satisfactory to the parents of participating students please provide any parent comments.

District/LEA Comments

The inclusion of an ELA Paraprofessional to assist students to participate meaningfully in the classroom is included in the ESEA Plan narrative. However, funds are not allocated for this position in the submitted Title I budget this time due to a decrease in the district's overall allocation. It was felt this position would be beneficial if changes in allocation amounts allowed for its inclusion at a future date, and therefore was included in the plan.
